THE PATRIOT GROUP

The Patriot Group is a nationwide, independently owned utility services contractor founded in 2016 by a team of U.S. Military Veterans. Built to address critical gaps in the industry, we've earned a reputation for transparent, reliable, and results-driven solutions across diverse markets.

We offer turnkey 4PL services including yard and warehouse management, materials handling, procurement, forecasting, and program and project management. Our expertise spans land acquisition, regulatory compliance, and logistics—tailored for complex infrastructure and utility projects nationwide.

Specialized teams in Fire Services, Disaster Response, Traffic Control, and remote material handling allow us to deliver integrated solutions for utilities, municipalities, and construction partners.

Through strong alliances with national distributors, we reduce total cost of ownership by streamlining operations, simplifying billing, and minimizing vendor overlap.

As a signatory with multiple IBEW locals nationwide, we operate under union labor agreements and support compliance wherever required.

DEMOLITION AND CLEAN UP

STAFF AUGMENTATION
